Email: beqamaisuradze912@gmail.com @ Github @ LinkedIn @ portfolio

As a Software Developer with two years of experience, I am dedicated to continuous self-improvement and the pursuit of emerging technologies. I have demonstrated a remarkable capacity for rapid learning and adaptability and am now seeking fresh challenges to leverage my expertise in crafting cutting-edge web and mobile applications.

Experience

Co-Founder/Mentor/Lecturer @ AlgoUni
May 2024 – Present

Co-founded AlgoUni, an educational platform dedicated to teaching web development. In addition to my role as a co-founder, I mentored and lectured students, sharing my expertise and helping them achieve their learning goals.
I also developed and launched a comprehensive Next.js course, guiding students through the intricacies of building scalable web applications using this modern framework.

Full-Stack Developer @ TetroByte
December 2023 – Present

Developed an ERP system for "Maso," tailored for iron and stone manufacturing facilities.

- Utilized ReactJS to create a scalable, responsive web application.
- Implemented secure user authentication and authorization.
- Developed admin dashboards, sales management, inventory control, and CRM interfaces.
- Integrated real-time data updates and RESTful APIs using GraphQl.
- Maintained high code quality and collaborated effectively with the team.

Front-End Developer @ Bitoid Technologies
Novermber 2023 – February 2024

Worked on the ERP system for "Deliverow," a web application for order management and delivery processes.

- Utilized Next.js for responsive, high-performance web development.
- Implemented user authentication with Next Auth.
- Developed admin dashboards, client interfaces, and courier portals.
- Designed an order management system and integrated a barcode system.
- Ensured real-time updates and seamless API integration.

Full-Stack Developer @ Axioma AI
April 2023 – June 2023

Developed an AI prototype to simplify communication processes for businesses.

- Integrated APIs, including OpenAI and Google Sheets.
- Established a connection to the Pinecone vector database.
- Enabled user uploads of PDF and Excel files for AI training.
- Reduced processing costs by optimizing OpenAI API usage.

Mentor/Lecturer @ Bitcamp
January 2023 – April 2024

Mentored and lectured students in web development, specializing in React. Guided students from foundational principles to advanced proficiencies.

Skills

React Nextjs React Native Node.js Express.js MongoDb Mongoose GraphQl JavaScript TypeScript Styled-Components HTML Tailwind CSS Git Github Rest API
